Dear Sir:

On July 18, 2005, a telephonic interview was held between Examiner H. Johnson and Applicant's representative Steven Santisi to discuss the above referenced pending patent application.

The rejected independent claims 1, 10, 11, 12, and 14 were discussed. Although no specific agreement was reached as to the allowability of the rejected claims, the Examiner acknowledged that based on the Examiner's remarks at page 2, paragraph 3 of the office action mailed March 18, 2005, it appeared the references do not teach emitting light so as to provide clinically repeatable dosages sufficient to have a therapeutic effect. The Examiner further indicated that if these features are supported by Applicant's specification, an amendment

incorporating these features would likely overcome the outstanding rejections. Applicant's representative agreed to provide such a citation to Applicant's specification that discloses the described feature. No specific references were discussed.

Respectfully Submitted,
